

## Australian Vanadium 股票停牌，等待公布融资消息

Australian Vanadium Ltd (ASX:AVL) 已被澳大利亚证券交易所批准暂停交易，因为它准备发布融资公告

停牌将一直持续到 8 月 24 日星期二常规交易开始之前，或者直到向市场发布公告，以较早发生者为准。

## US Vanadium 谅解备忘录

上周，该公司与特种化学品生产商 US Vanadium LLC 签署了一份谅解备忘录 (MOU)，以供应高纯度钒氧化物和钒电解液生产许可证。

该协议将允许 AVL 开始本地钒电解液生产，以支持对新兴的澳大利亚 VRFB 市场日益增长的兴趣。

该谅解备忘录补充了已经与 US Vanadium 签署的关于未来从 Australian Vanadium 项目中采购钒用于美国关键金属市场的谅解备忘录。

两份谅解备忘录将导致两家公司之间达成具有约束力的相互钒供应和技术许可协议。

AVL 最近还通过澳大利亚政府的现代化制造激励计划 (MMI) 获得了 \$369 万元的补助，用于开发高纯度钒生产电路，建造和运营 33MWh 容量的钒电解液工厂，并为家庭和独立远程生产本地组装的原型 VRFB 系统电力系统。

## Australian Vanadium in trading halt with capital raising news pending

**Australian Vanadium Ltd (ASX:AVL)** has been granted a trading halt by the ASX as it prepares to make a capital raising announcement.

The halt will remain in place until the start of regular trade on Tuesday, August 24, or until an announcement is released to the market, whichever occurs earliest.

## US Vanadium MOU

Last week, the company signed a Memorandum of Understanding (MOU) with specialty chemical producer US Vanadium LLC for the supply of high-purity vanadium oxides and a licence for vanadium electrolyte production.

This agreement will allow AVL to begin local vanadium electrolyte production to support growing interest in the emerging Australian VRFB market.

The MOU complements the one already signed with US Vanadium regarding future offtake of vanadium from the Australian Vanadium Project, for use in the US critical metals market.

Both MOUs will lead to a binding mutual vanadium supply and technology licence agreement between the two companies.

AVL has also recently been awarded a \$3.69 million grant through the Australian Government's Modern Manufacturing Initiative (MMI) to develop a high purity vanadium production circuit, build and operate a 33MWh capacity vanadium electrolyte plant and produce locally assembled prototype VRFB systems for domestic and standalone remote power systems.
