

Australian Vanadium 提出钒加工电路国际专利申请

Australian Vanadium Ltd (ASX:AVL) 已为其钒加工电路申请了国际专利，以保护在 AVL 旗舰项目的银行可行性研究中产生的知识产权（IP）。

该 IP 涉及 AVL 的处理电路，该电路由一系列创新工艺组成，旨在最大限度地提高钒的回收率，尤其是从氧化带和过渡带经济地回收钒的能力，这在全球钒钛磁铁矿（VTM）矿床中很常见。

该专利申请通过《专利合作条约》在 156 个国家得到认可，推进该申请的部分工作得到了澳大利亚政府的研发拨款资助。

Australian Vanadium lodges international patent application for vanadium processing circuit

Australian Vanadium Ltd (ASX:AVL) has applied for an international patent for its vanadium processing circuit, moving to protect intellectual property (IP) generated during the bankable feasibility study conducted on AVL's flagship project.

The IP concerns AVL's processing circuit, which consists of an innovative combination of processes to maximise vanadium recovery, and especially the ability to economically recover vanadium from oxidised and transitional zones, common to vanadium-titanium magnetite (VTM) deposits worldwide.

This patent application is recognised across 156 countries through the Patent Cooperation Treaty, and work contributing to this application was partially funded by the Australian Government's research and development grant.
